The floor plan shows a complex arrangement of rooms and corridors. Key features include:

- Rooms:** Werkstatt (Workshop), Gang (Corridor), WC (Toilet), Labor (Laboratory), and several storage areas (Lagerung).
- Structural Elements:** Columns (Stützen), beams (Träger), and walls are clearly delineated.
- Doors:** Various door types are specified, such as Rauchschutztür (Smoke-protective door), Schallschutztür (Sound-protective door), and Einbauschwelle (Built-in threshold).
- Dimensions:** Numerous dimensions are provided for room sizes, wall thicknesses, and overall building footprint.
- Orientation:** A north arrow is located in the top right corner.
- Labels:** Rooms and areas are labeled with numbers (e.g., 631-A, 631-B, 631-C) and names (e.g., Eingangsbereich, Lagerung).

**SCHNITT B-B 1:50**

**SCHNITT C-C 1:50**

A 3D perspective schematic of a robotic cell. The cell is a rectangular enclosure with a light pink interior and a grey exterior. Inside, two purple robotic arms are mounted on a green base. Each arm has a cylindrical body and a curved, articulated joint. They are positioned over a light blue rectangular platform. To the left of the platform, a green staircase with a black railing leads up to the top of the cell. The entire assembly is shown in a cutaway view, revealing the internal components and the base structure.

Technical floor plan of a house showing the layout of the kitchen, living area, and bedrooms. The plan includes labels for various rooms and features, such as 'Küche', 'Wohnraum', 'Schlafzimmer', and 'Balkon'. It also shows the location of the 'Kamin' (fireplace) and the 'Kaminrohr' (chimney). The plan is oriented with the front of the house at the top.

[illegible]

A 3D cutaway diagram of a wastewater treatment plant. It features a large circular tank with a central vertical shaft containing a ladder. The tank is surrounded by a rectangular structure with a green safety railing. The diagram illustrates the internal components and layout of the facility.

3D VISUALISIERUNG WENIGER

A 3D cutaway diagram of a building, likely a school or office building, showing its internal structure. The diagram includes a staircase, an elevator, and various rooms. The building is shown in a cross-section view, revealing the internal layout and structural elements. The diagram is color-coded, with different colors representing different materials or components. The building is shown in a perspective view, allowing for a three-dimensional understanding of its structure.

Technical cross-section drawing of a drainage system. The drawing shows a concrete base with a drainage channel. A pump unit is installed in the channel. Dimensions include a total width of 1.80m, a channel width of 0.60m, and a pump unit width of 0.30m. Elevation markers are at +0.50 and +0.05. Labels include "Aufstellung des Pumpen- und Rücklauf-Sickerbetons" and "Bohren aufbetonen für Pumpenaufleger".
